SERMON OUTLINE

Sermon: The Human Element Of Miracles

Text: Matthew 19:26

Thesis: God Will Never Do Your Part.

I. Sometimes To Have God Part Waters We Have To Step Into The Water.

A. Life's crossings require faith and effort.

B. We're going to have our share of crossings too.

II. Sometimes To Have God Work We Have To Wade Into The Water Seven Times.

A. The healings we seek also require faith and effort.

B. Faith lets God set the terms and we bring obedience.

III. Sometimes To Have God Do The Supernatural, We Have To Do The Natural.

A. This natural is the human element which is key to success.

B. God will bring the supernatural.

Conclusion: Often times we need a healing, though not always physically. Sometimes we need a crossing. Getting on to something new and improved. God has the ability and help, even when the odds are stacked against us and the world claims it to be impossible. Well, I don't think anything is impossible for God. It may not be the right season and it could be flood stage. However, if it's God's will then in faith I want to call Him forth to the situation. I pray that you will not hesitate to do the same. Don't lose your miracle!
